

PUBLIC NOTICE
Volunteers Sought to Serve on Advisory Board

Joint Base Cape Cod (JBCC), Mass. — The Joint Base Cape Cod Cleanup Team (JBCCCT) is recruiting new members from Bourne, Sandwich, Falmouth, and Mashpee. Citizen team members are volunteers and don't need to be an expert in engineering or science. Members receive updates and provide input on the Air Force and Army environmental cleanup programs at JBCC. The team is comprised of citizen volunteers and representatives from the U.S. Environmental Protection Agency, the Massachusetts Department of Environmental Protection, the AFCEC Installation Restoration Program (IRP), and the U.S. Army National Guard Impact Area Groundwater Study Program (IAGWSP). The IRP is responsible for Superfund groundwater and soil investigation primarily in the southern portion of JBCC. The majority of the IAGWSP work is in the northern 15,000 acres, under the authority of the Safe Drinking Water Act Administrative Orders and the substantive requirements of the Massachusetts Contingency Plan oil and hazardous materials regulations.

Meetings are normally held on a Wednesday, 2-4 times per year at 6 p.m. They typically last 2 – 2 1/2 hours and are open to the public. Meetings are conducted online except for one in-person meeting per year.

Anyone interested in joining the team should submit an email to Douglas Karson, AFCEC Community Involvement Lead, at douglas.karson@us.af.mil. In the email submission briefly summarize your background and your desire to learn about and participate in the environmental cleanup process at JBCC.

For questions about the JBCC Cleanup Team please contact:

Douglas Karson, AFCEC, (508) 524-9206, douglas.karson@us.af.mil

Lori Boghdan, IAGWSP, (508) 509-2869, lori.p.boghdan2.nfg@army.mil
